

Magnus Health Academy

COVID-19 Wellness Pledge

Kelly Taylor Grade: Class of 2024

Magnus Health Academy is committed to providing our students, faculty, and staff with a safe learning environment. Our research and planning has been informed by national, state, and local public health guidance, as well as conversations with medical experts. We believe our strategies will be effective at mitigating the spread of disease on the campus.

Unfortunately, and even with all of the protective measures in place, Magnus Health Academy cannot guarantee an environment free of COVID-19, which carries a risk of bodily injury and illness as more fully set forth in the COVID-19 pages at www.cdc.gov. While much has gone into the effort to protect our community, the school understands a successful year will take teamwork. Therefore, we are asking for a partnership with all of our community members to protect others by taking responsibility for their own health and safety in a manner that demonstrates respect and consideration for those with whom they interact. We are asking for parents to sign The Wellness Pledge on behalf of themselves and their children:

Pledge to Protect Myself by:

1. Remaining vigilant, even while away from Magnus Health Academy, to help limit the spread of the virus. Following the latest national, state, and local public health guidance.
2. Monitoring my family for the symptoms of COVID-19 and reporting to a medical professional.
3. Washing hands often with soap and water or using hand sanitizer.
4. Minimizing personal risk and avoiding large gatherings in the weeks leading up to the start of school and continuing throughout the year
